

RLGA

Rules of Competition

The Competition Chair creates the bi-weekly game selection. The intention is to have a wide variety of games during the season that allow many players to 'win'. Both 2 gross and 4 net scores are used for most games. Please be aware of each competition prior to play as there are some games that require counting fairways and putts.

Eligibility

- Player eligibility for competitions will require an RLGA membership in good standing, have a handicap and compete with at least one other eligible RLGA member who must attest your scorecard. A player may enter a competition a maximum of 2 times per bi-weekly competition.

Scoring

- Enter your first and last name, the date and your current course handicap on the sign-up sheet prior to your round. If you forget, please announce prior to teeing off on the first hole and sign-up immediately after your round.
- Enter your first and last name, the date and your current course handicap on your scorecard.
- Limit two players per scorecard. Please leave one line below name empty for scoring purposes.
- Record Gross/Net legibly on scorecard unless otherwise specified.
- Master scorecard should be signed by the scorekeeper and signed to attest by another player.
- Scores must be posted within 72 hours. Post your ESC adjusted score. **Using the GHIN APP – posting Hole by Hole is recommended.** Competition scores are **NOT** to be posted as tournament scores.
- All players should keep their own scorecard and putts to verify with the master scorecard before dropping in the RLGA drop box in the pro-shop.

Winners

Winners are determined by the Competition Chair based on the game played. Both gross and net are typically calculated. Bi-Weekly Winners are posted on the website.
